OBJECTIVE:

Seeking the Software Developer position where I can leverage my expertise in programming, along with my passion for software development, to contribute to innovative projects and drive technological advancements.

EDUCATION:

Diploma in Computer Programming and Analysis   **Expected, April 2025**
George Brown College | Toronto, ON

- GPA: 3.14

SOFTWARE AND DESIGN PROJECT:

Connect 4 game, Data Structure and Algorithm   **March 2024**

- Programmed in Java with a focus on efficient data structures and algorithms, the Connect 4 game offers an enjoyable gaming experience with its friendly user interface. Featuring two playing modes—Human vs Human and Human vs AI—the game provides versatility for users to challenge friends or test their skills against a computer opponent.

Fly Manager, OOP - C#   **December 2023**

- Fly Manager is an object-oriented program design in C# to efficiently manage various aspects of airline operations. It encompasses functionalities such as booking management, flight scheduling, passenger information handling, and resource allocation.

Portfolio Website, HTML – CSS - JS   **March 2024**

- A portfolio website features a clean and visually appealing design, with sections for projects, about me, contact information. HTML provides the structure of the website, defining the layout and content. CSS is used for styling, including fonts, colors, spacing, and overall visual presentation. JavaScript adds interactivity and functionality for contacting.

TECHNICAL SKILLS:

- Programming Language: JAVA, C#, HTML
- Web Design: CSS, Adobe Photoshop, Visual Paradigm
- Object-Oriented design, Data Structure & Algorithm
- Database: MySQL, Oracle SQL
